Policy - Directed Research to Improve Care for Persons with Complex Health Needs

The HEADS Center will amplify the Lipitz Center's research and policy focus on complex care. The HEADS Center will build interdisciplinary collaborations and increase population-based knowledge of dementia care and services. The HEADS Center will facilitate the translation of research into practice and policy, and create opportunities to bring together researchers, gerontologic nursing researchers, and geriatricians across the Johns Hopkins Institutions to address and study dementia and its co-occurring health conditions.

FACULTY SPOTLIGHT

Jennifer Wolff, the center director is launching the Alzheimer’s Disease and Services (HEADS) Center. Led by Dan Polsky of the Bloomberg School of Public Health, the Johns Hopkins School of Medicine, School of Nursing, and the Institute for Health, Equity, and Society.
