Latest Articles by CPHIT Faculty and Staff
Performance of a Predictive Model versus Prospective-Based Thresholds in Identifying Patients at Risk in Type 2 Diabetes Outcomes. ASH Substance Use & Misuse

Review a full list of CPHIT Publications here.

Congrats!
Hadli Kharrazi, MD, PhD, FABA, has been named Associate Editor of JAMA Open. JH Open is the official openaccess journal of the American Medical Informatics Association (JAMIA). Kharrazi will fill that role as Associate Editor in June 2021.

New CPHIT Research Grants:
- A new AHF grant entitled Developing and Assessing the Validity of Claims-based Indicators of Frailty & Functional Disabilities and Testing their Use in Other Data Sources and Linked EMRs. Together with the Johns Hopkins Armstrong Institute for Patient Safety and Quality.
- A new FDA grant entitled: "Opportunistic in Type 2 Diabetes ADR/Adverse Drug Events (ADRs): Assessing disparities in occurrence and outcomes of type 2 diabetes ADRs in minority populations using real world administrative claims and EHRs. Through the JHU Center of Excellence in Regulatory Science and Innovation (CERSI)

Stay tuned for results and publications! For more information, contact CPHIT Center Coordinator, Elise Lasser: elasser1@jh.edu

Team Member Spotlight: Elham Hatif
Elham Hatif, MD, MPH earned her medical degree from Tehran University of Medical Science, in Tehran, Iran, and her Master in Public Health from Johns Hopkins Bloomberg School of Public Health (JHSPH). Dr. Hatif completed a preliminary year in Internal Medicine at Yale-Whitlocke Griffin Hospital in Connecticut and the Preventive Medicine, Residency and Chief Residents at JHSPH. She then completed the Clinical Informatics Practice Pathway at JHSPH. Dr. Hatif is board certified in Prevention Medicine, Public Health and Clinical Informatics.

She joined the Center for Population Health IT (CPHIT) where she conducts a number of projects in preventive medicine and population health with a focus on social determinants of health, using health information technology and Big Data. She also serves as the academic director of the Johns Hopkins General Preventive Medicine Residency Program.

See Elham’s JHSPH faculty page here.

Jonathan Weiner’s HIMSS TV Interview:
Dr. Weiner did a live interview on "HIMSS TV" regarding role of Data Science (AI and Machine Learning) in Population Health and Health Care. See the Past.
